SUMMARY

Motivated and detail-oriented recent graduate with an MCA Degree/Major from Chandigarh University. Equipped with a solid foundation in Web Development, I have demonstrated a strong ability to quickly learn and apply new concepts through academic projects . Passionate about Web design, I am eager to contribute fresh ideas and energy to a dynamic team. My strengths include effective communication, problem-solving, and a commitment to continuous learning. Ready to leverage my academic background and enthusiasm to kick start a successful career in Web development.

PROJECTS

Netflix-clone   **August 2024**

- Developed a Netflix-inspired web application using React.js, Node.js, MongoDB.
- Implemented user authentication, movie search, and video streaming functionality.
- Utilized API integration to fetch movie data and dynamically render content.
- Integrated responsive design for seamless viewing across devices.
- Leveraged cloud storage for hosting video content (e.g., AWS, Firebase).
- Enhanced user experience with smooth navigation and a clean, modern UI.

Real-Time Chat Website   **August 2024**

- Built a full-stack real-time chat application using Node.js, Express, Socket.io, React, etc.].
- Implemented real-time messaging functionality with instant updates using WebSockets.
- Designed user authentication with secure login and session management.
- Incorporated chat features such as typing indicators, message timestamps, and user status (online/offline).
- Developed a responsive UI to ensure smooth user experience across devices.
- Deployed on cloud service, Heroku, AWS for real-time performance and scalability.
